Deputies and assistants actually needed may be appointed by the various county officers for the actual time required, but the necessity, number and salaries to be in the discretion of the board of county commissioners.

We are opposed to the creation of any additional salaried officials or boards and in favor of the abolishment of any that can be dispensed with, or the duties merged in some other office or department without detriment to the public service.

THE PLEDGE OF MODESTO ORTIZ, NESTOR MONTOYA AND EDWARD A. MANN, REPUBLICAN CANDIDATES FOR THE LEGISLATURE IS AS FOLLOWS:

For "Reasonable county salaries," as dictated by Sheriff Jesus Romero who demands \$5,000 a year and pay of deputies, for doing nothing at all; as dictated by Frank A. Hubbell who used to draw \$8,000 a year as county treasurer and would like to do it again; and as dictated by W. H. Gillenwater, who believes the boys ought to get enough to enable them to come across liberally to the campaign funds.

THESE COUNTY SALARIES ARE PAID OUT OF YOUR MONEY, MR. ALBUQUERQUE VOTER.

YOUR VOTE ON THE ABOVE LEGISLATIVE CANDIDATES IS YOUR ONE AND ONLY CHANCE TO PROTECT YOUR POCKET BOOK.

Gambling by Any Other Name

In buying the necessities of life millions are lost to the thousands lost in actual gambling. And this is so because the average person has a prejudice born of foolish pride or is prone to "take a chance."

In the matter of clothes, if a man be prejudiced in favor of the custom-tailor, he will pay forty dollars for a suit no better than the high grade ready-to-wear suit at twenty-five.

If prone to take a chance, he buys an ill-fitting, shoddy "ready-made," simply because it is a few dollars cheaper than a suit of real intrinsic worth.

**ROAD BOARD MAKES
SMALL FUND GO
LONG WAY**

State Engineer Gives Emphatic Commendation to the Accomplishments of County Highway Builders.

Work accomplished during the year by the Bernallito county road board was strongly commended by State Engineer James R. French in an interview given last night when he arrived here on his way to Los Lunas.

With a small fund available, Mr. French said, Bernallito county has done excellent and extensive work in road construction the county ranks next to Dona Ana, where \$100,000 has been spent during the last year.

The class of highways required here, Mr. French said, cannot be built cheaply. Material must be hauled for some distance and expense is increased by the frequent necessity for crossings over irrigation ditches.

Mr. French commented on the progress made on the North Fourth street road. A year ago that road was hardly passable for trucks.

Mr. French said work on the Alburquerque-Latir road is being pushed satisfactorily and he expects the road from here to Jemez Springs will be in shape for easy automobile travel by Christmas.

MISSION WORK ON
UP GRADE SAYS
CONFERENCE

That mission work in the state, so far as the Baptist church is concerned, is on the up-grade, was the substance of a report made the state conference of the church, now in session here, this morning. The contributions of the past year were larger than those of the former years.

The home mission report will be read this evening but it is understood also to show satisfactory conditions.

Reports were also read on the liquor traffic by Rev. J. T. Soder of this city. The loan and gift fund was discussed by Rev. D. D. Proper of the American Baptist Home Mission society, a missionary to New Mexico seventeen years ago.

Devotional exercises were led by Rev. F. M. Logan. The board of missions was authorized to accept certain lands offered by the Cloudcroft directory.

**Get to Go Deep to
Cure Rheumatism**

**Liniments Help Locally, But
the Disease is Way Down
Inside.**

To get at the source of rheumatic pain, it requires the deep searching investigation of S. S. & S., the famous blood poison. Rheumatism is a chronic disease that since it is in this vital field that rheumatic tendencies are carried, lodges in the joints and muscles there to irritate the nerves and produce pain. And in order to drive out these pains inlicting poisons it requires S. S. & S. It is deeper than any poison injected in the important tissues. S. S. & S. travels wherever the blood goes and never loses its medicinal influence. This explains why it overcomes the most chronic forms of rheumatism, why it dissolves those hard deposits that clog the joints; for it acts as a solvent and erodes those fibers that provide in the tissues those natural elements for which the body-building process continually craves and must have.

If you have never used S. S. & S. for rheumatism, get a bottle today of any druggist. Use it as directed and with simple home help, you will soon destroy the rheumatism and cure painful forms of rheumatism. Write the medical department, The Swift Specific Co., 68 Swift Ridge, Atlanta, Ga., for additional advice. Yours may be a case where a slight help from a specialist would be free, so write him and let him know that has been making life miserable for you. When you ask for S. S. & S. give him \$2.00 and refuse all substitutes.

Things were wrong, decidedly wrong. The internal regions almost popped because of the indignation felt by the chairman and the senator. Mr. Porter had not forgotten to light the fire under the pitch kettle the popping would have taken place.

**JURY EXPECTED TO
GET WILL CASE
TOMORROW**

**Whatever the Verdict, it is
Said the Action will be Ap-
pealed by the Losing Side
of Bitter Fight.**

Today brought the end of the Staab will case, which has taken up the better part of two weeks in the district court, within sight. Testimony in sur-rebuttal was finished this morning and this afternoon it was expected that the trial, except for argument by counsel, would come to a close this afternoon with the reading of some correspondence which Neil B. Field, counsel for Arthur Staab, desires to lay before the jury. Argument by counsel is expected to begin tomorrow morning, and before the day closes it is anticipated that the case will go to the jury.

Arthur Staab and his wife were recalled today by Mr. Field in sur-rebuttal. They replied to testimony touching on Mr. Staab's financial dealings with his father.

While it is true that the end of the trial is in sight, those familiar with the feelings of both sides say that whatever the verdict, it will not mark the end of the case. Both sides, it is said, have made up their minds to carry the action up on appeal in the event of an adverse verdict. A disagreement will mean, it is said, another trial here.

**Archer Denies He
Is Guilty of
Water Theft**

Asks Court to Compel Company to Restore Service. Charges Attempt Made to Cut Under House Foundations.

James Archer, who is being sued for \$500 by the Water company, which alleges he stole water by tapping a main crossing his premises in the Ruidoso Highlands addition, today filed a crossbill in the district court, denying the allegations and praying for an order compelling the company to restore his water service. The supply was cut off preliminary to the legal action by the company.

Mr. Archer denies the "scandalous accusations" made by the company, and asserts that it attempted to cut under the foundations of his house and dug his lawn in such a way as to wreak great damage. He refused and still refuses to permit that he states in his bill, but avers that he never forbade the company access to the pipes for purpose of inspection or repair. As to the company's claim of easement across the property, he asserts that their pipes cross his property only under a revocable permit.

In praying for an order compelling a restoration of service, Mr. Archer submits that he is willing to pay the usual rate for an 8 ft. service and meet all just and equitable charges of the company.

THE LEADER

**CHAIRMAN R. C. ELY
AND T. B. CATRON
GET CITRATE**

There was something to pop that apparently needed popping last night, and there was no sign of any lame under the pitch kettle, when Chairman R. C. Ely and U. S. Senator T. B. Catron arrived last night, greeting with hearty handshakes and brief addresses.

It was a cool and slightly cloudy evening, but the meeting was well attended. Briefs, they had expected to address the meeting in the graceful terms of the speaker writer, but there was N. D.

Except for the faithful but forcible figure of Colonel J. Porter Jones there was no one on hand at the station to greet the illustrious figures as they stepped from the train. The Republican headquarters was not even lighted up in their honor. To add to the horror of the situation the evening was cool and slightly cloudy. To the meeting less spectators it was very cloudy, indeed.

The 42-centimeter guns of the 9th (Crestline) O. (Infantry) had arrived and the enemy was elsewhere. There was no one near to be made the victim of their voluminous assaults of tariff figures and campaign legendreanum. There was no ammunition on hand, not even a few sticks of peanuts.

Things were wrong, decidedly wrong. The internal regions almost

popped because of the indignation felt by the chairman and the senator. Mr. Porter had not forgotten to light the fire under the pitch kettle the popping would have taken place.

Half an hour at the telephone elucidated the fact that there was a meeting in Bernalillo. The senator, therefore, went to Bernalillo. He spoke,

When you ask for S. S. & S. give him \$2.00 and refuse all substitutes.

Enthusiasm over the reception to be accorded Congressman Harry B. Ferguson, when he arrives here tomorrow from Santa Fe from No. 2 after an absence from home of two years, has in reased every hour since the problem was first broached, until the non-political. The plan to give a hearty greeting to Mr. Ferguson's distinguished citizen has appealed with so much force to Republicans and Progressives as to Mr. Ferguson's fellow-Democrats. Prominent Republicans and today that they would go out of their way to be at the station tomorrow to meet the congressman.

The committee of one hundred named for the reception of Mr. Ferguson, which is itself not only non-partisan but non-political, has declared against any speech-making. Not a speech will be made. The reception will be largely informal—
